Company Profile

Since 2010 Company offer wide range of brass components to our clients at industry leading prices. We do offer quality range of products since decades. Today, we have been established ourselves as reputed manufacturers and suppliers of brass components India at highly competitive prices.

We have right skills and expertise to manufacture all complex pieces with ease. We offer our products as needed by our clients in custom specifications. Our strong technical experience has made us more competitive in market. Further, our quality engineers inspect products thoroughly to assure flawless production to our clients.

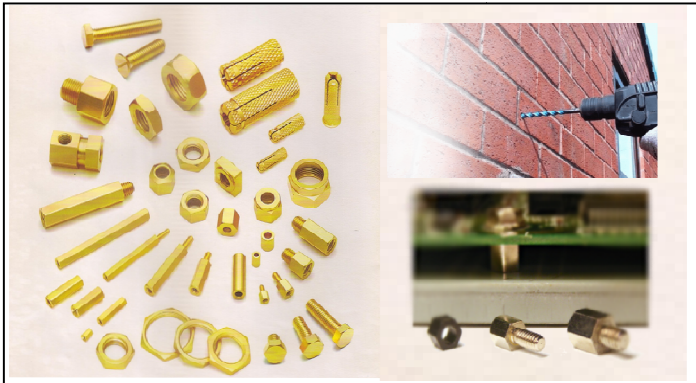

We always manufacture our products with quality raw materials sourced from most reputed vendors in the industry. We have equipped laboratory and manufacturing unit where we manufacture our products as per industrial standards and quality norms. We work in dual shifts to complete any order in committed time frame. We also have ultrasonic facility to give remarkable finishes and clear plating on to wide range of brass products.

Since the time of our inception, we are working with single objective to achieve maximum client satisfaction. We are striving hard to deliver quality range of products to our clients. Our experienced and qualified team is our backbone that shows why we are so successful in the industry. Owing to strict quality guidelines, our products are popular in both domestic and international markets. Our Mission Our Vision Our vision has always been to excel in our performance and achieve perfection in what we are doing. Flawless production, timely delivery and competitive pricing are the characteristics of our organization.

QUALITY

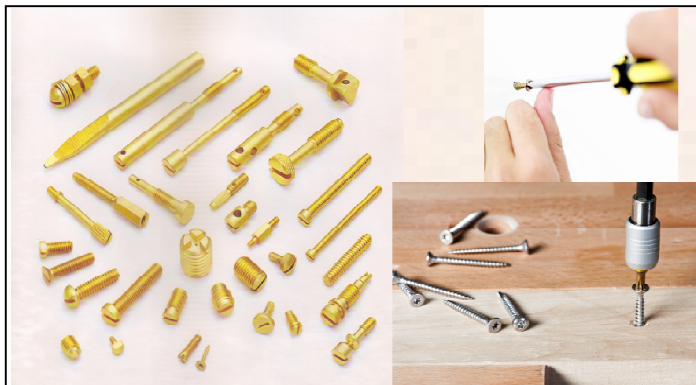

We use an VMC and CNC Machine for our production so our client will get perfect products and good quality autorised products from us. We will never compromise in Quality & Assurance.
